6/4 lb. case

PREPARATION

To prepare 4 lbs. (1 bag) of cheesecake mix, use 3 ¾ quarts of whole milk. Pour the milk into a mixing bowl and then add the cheesecake mix. Using a wire whip on low speed, mix for approximately 5 to 6 minutes. Stop the mixer; scrape down the sides of the bowl and the paddle. Continue mixing for another 1 - 2 minutes. Longer mixing times or faster mixing speeds will make the cheesecake lighter and smoother. Pour the liquid batter evenly into desired containers and chill until firm.
